Crawford joins Symmetry

Griffin resident Dr. Carla Crawford MD has recently joined the local business community as a senior level business partner with Symmetry. Symmetry is a direct selling company known for their resveratrol infused juice product to help people of all ages improve their health and wellness, Crawford MD said.

“When I heard of the positive impacts this company was making towards communities all over the world, I had to get involved!” Crawford said. “I am so excited to see how I can help the people in my local neighborhood understand the value of nutritional products and its overall positive influence.”
