

An Amazing Start!

Angie Yankana

- **Hit Field Vice President in first month!**
- **Received \$1000 from Cash Contest**
- **Started with “Genesis Success Pack”**
- **Became Marketing Manager in just 30 days**

My desire was to have a business of my own one day. In my time of prayer, I would ask God to open a door of opportunity. Then one day, I was introduced to Symmetry by a family member who resides in Trinidad. After hearing the results of using the products, I browsed the Symmetry website, and **discovered great information about wellness that comes from using the products.** I was thrilled, even to the fact it was biblically based. Therefore, with prayerful consideration, I

decided to enroll with the “Genesis Success Pack.” My family and I started drinking the Genesis. **We were amazed with the results after a few days; it really is a “miracle juice.”**

I find that I reach my goals each month by familiarizing myself with the symmetry line of products, and gaining information on the health benefits in using the products. **I am able to communicate this information to others and see the results first hand.** I was attracted to the business opportunities, proposals of making money and working smart. From then on, I ventured out, and started to use the techniques provided from the website and the literature I received with my “Success Pack.” Using those tools and having an essential ingredient of a great personality, **I was able to market the products successfully to those I communicated with.**

Anyone can have success within Symmetry by using the various lines of products and having the product knowledge, as well as believing in the products. This is incredibly essential in marketing. **Keeping in touch with your business partners and preferred customers are also very important to your success.** When one uses the products individually and see the results that are attained by using it, they will **gain the confidence to market simply because it works.**

Symmetry to me means a dedication to wholeness and wellness in the lives of generations. With that in mind, Symmetry has created opportunities for more than a lifetime because everybody needs to feel good and look better. So why not make some money along the way by helping people accomplish this. In summation, using the work smart plans of Symmetry allowed me to reach a position that **brings in great financial dividends so my dreams and visions can be accomplished.** Thanks you Symmetry for the great line of products and an amazing opportunity!
