Born and raised in Manila, Philippines, Corona Gatpo and husband, Domingo, had to be a hardworking couple to survive. In addition to holding full time jobs, Corona was managing her convenience store, while her husband Domingo, worked hard to maintain their apartment complex. Because they were working 18 hours a day, their health was taking a turn for the worse.

Life has changed for Corona and Domingo, since they were introduced to the Symmetry products by their nephew John Medina. **Symmetry's Genesis made a tremendous impact on their overall health.** After using the Genesis Corona said, “I do not know what this product has, but all I know is that it definitely works.” Corona started sharing the products with their family, friends and relatives. Because of the excitement created from Genesis and the system that Josie and John Medina had laid out, Corona got a call from the President of Symmetry Mr. Rudy Revak telling them that they **had earned the \$5,000 cash bonus.** Corona exclaimed, “I found a company that truly makes you healthy and wealthy, and that pays you handsomely for just telling other people about it. Symmetry is committed to **taking care of your future through the residual income** that comes along with it.”

I would not have been able to earn **over \$7000 in one month** working a regular job as I was before. **Symmetry is a vehicle by which anyone can achieve their dreams** no matter how big or small they might be. My word of advice to all is, **“Dream big, believe in the company, products and opportunity, believe in people, work the system and your dreams will come true.”**
