

## *He's on a roll!*

- **December Cash Contest Winner**
- **Over 40 active personal enrollees**
- **Made over \$2,000 as a Field Vice President**

**Jon Barton**

Coming out of high school I was so frustrated at the fact that I was about to be punching in and out, 9–5, Monday through Saturday for 51 weeks out the year, for the next 40-45 years of my life and still having money be an issue in my life. Growing up seeing my family struggling financially in this same routine, **I knew there had to be more to life than that.** The frustrating thing was that I never saw how it was going to be different for me until I saw Symmetry when I was in college. **I saw Symmetry as a way to get my dreams back and really live a life full of adventure for me and my family, as well as help others do the same.**

I can say that the only reason I have had any success in this business is because of the incredible educational system that Mr. Rudy Revak and Mr. Joe DeLisle have created. If it was not for the incredible leaders Symmetry has, “Seeds of Success” workshops, and my incredible organization, **I would still be broke and frustrated with no light at the end of the tunnel.** My success comes from bringing my organization to training, so they can learn from the top Business Partners in Symmetry, allowing them to be the best that they can be. Growing up I was never the most talented, but I knew that if someone else could do it, if I work hard enough, I could do it, too.

Growing up with no money, **Symmetry has allowed me to live a lifestyle that I never thought I would ever be able to experience.** From making more income than ever before, to flying in a plane for the first time, to traveling to places like Cancun, San Francisco, Las Vegas, Rush City, to the personal time with multi-millionaires like Mr. Revak and Mr. DeLisle. I always knew there was a better life than what I was raised in. **I thank the Lord every day for blessing me with Symmetry, my leaders, and my organization.** I passionately believe Symmetry can provide something for everyone as long as they are willing to listen, learn, try, and most importantly NEVER, EVER QUIT! Staying involved by attending the events is the best way I know how to do that. **I'm excited to create financial independence in my life, as well as help many people live a healthier life and a better lifestyle through Symmetry!**
