

An amazing start for a new year!

Dan Clark

- **Earned over \$15,000 in January!**
- **Earned \$5000 for 1st place in Symmetry's Cash Contest**
- **Sold over 50 Business Packs in January**

The easiest way to get someone involved with Symmetry is through Genesis™. I've achieved a large portion of my enrolling from Genesis™ because when people see the results, they want to share it with their friends and family. And when they want more, I gave them the choice of saving money by joining Symmetry as a Business Partner. I tell them the Business Pack is a no risk investment. **They get the products at membership costs, plus the chance to open the door to the possibility of a thriving business.** If they do

nothing but continue to purchase product, they win because they still get Genesis™ at a 30% discount as a member. Telling them this lets them in on the many rewards of Symmetry.

I believe my recent Cash Contest win was solely based on Genesis™. I introduce Genesis™ through retail sales, and then invite the customer to get the product at a discount and tap into the awesome compensation Symmetry offers. **And the success, for me, within both the product and business sides of Symmetry has allowed me the incredible opportunities I've experienced.**

My advice to any Business Partner of Symmetry is to first, use Genesis™! I can't stress this enough. **You can't recommend what you don't believe in.** Secondly, get other people using it. Genesis™ really works. We have a world that needs the nutrition Genesis™ gives them. When people experience a positive result, they want others to know about it. People get excited because they know the scientific research and knowledge is real. Finally, get them to enroll as Business Partners. **The Symmetry compensation plan is a perfect motivator for people to sign up as Business Partners.** I have the Preferred Customer option as a last resort. Why should they pay \$12 for a membership fee, when they can buy a little more product and get the membership free.

My goals for 2007 include, first and foremost, love the Lord, my God, with all my heart, soul and strength. And do unto others, as I would have them do unto me. Also, I plan to strive towards National Field Vice President. **I plan to help people improve their health through better nutrition and achieve financial independence through the Symmetry compensation plan.** Additionally, build a thriving Symmetry business in Mexico! **Everything I've experienced and provided for people has come from my hard work, determination and goal setting with Symmetry.** And I can't thank them enough!
