My wife, Shannon, and I were on vacation and I just happened to sit down next to Travis Just and Brittany Knotte. I believe this chance of meeting was fate because we became instant friends. After talking for a while I realized Travis and I had a lot in common - we were both amateur bodybuilders, both self-employed nutritionists, and our jobs include **changing people's lives in a positive way** (my wife and I own a nutrition store in Riverside, California).

Travis and I started comparing the products we enjoy selling, and before the evening was over, Travis gave me samples of the **Genesis and Ultra Vitality Crystals** to try. I tried the Genesis and Ultra Vitality the following morning, and was instantly sold on it. As a Sports Nutritionist and owner of a sports nutrition store, I have used a lot of vitamins, however, **this is the first time I have ever had a "rush" of energy throughout the day.**

I am a bodybuilder and my wife is a figure competitor; these types of competitors need to look good on the outside, but sometimes we tend to forget about the importance of our health on the inside, and that antioxidants are prime in our arsenal of staying healthy. **The only way I can explain Genesis is "Wow!" When I took the Genesis and the Ultra Vitality, I felt energetic, motivated and alive all day.** It was awesome!

I knew instantly that **I needed to share these products with my customers, and definitely with my family,** but wanted to know more. My wife and I flew to the Midwest to attend a Seeds of Success workshop, and heard more about how I could integrate these products into my lifestyle. I couldn't believe the life-changing stories I heard at this seminar. After hearing the testimonies, my wife and I felt, and still feel, that as nutritionists, it is our job to give customers the best products on the market. Well, **I'm telling everyone now that Genesis and Ultra Vitality are the best duo I have ever used. Everyone needs to use these two products for the awesome health benefits!**
