

Success Made Simple

Franny Bayawa

- Qualified for Free Annual Trip in 2009
- Newest Field Vice President
- Qualified for Achievement Bonus
- Joined for Genesis, then built business
- Can now stay at home & raise children

I was first introduced to the Symmetry products 13 years ago due to my son's health; I simply wanted my son to feel better and had no interest or knowledge of the business end of Symmetry. **I never even imagined that this remarkable company would be such a huge part of my life.**

After the positive results, people asked me repeatedly about the products and business opportunity, but all I could do was give them the phone number of the company. Then, **to my surprise, there was a check sent in my name from Symmetry. It turns out I was rewarded for all the people whom I had given the phone number to** and were indeed calling the office. This was surely an eye-opener for me regarding the integrity of the company, and eventually, I did begin working the Symmetry business.

Symmetry has turned my life around in all areas. It has allowed me to spend quality time with my children and helped provide me with the capability to raise them myself. I was fortunate to work around their hours, and my biggest motivation has always remained my children.

Using tools has definitely helped me get instant results with my business. I am on the public transportation system a lot and I use this opportunity to plant seeds with every bus driver and person sitting next to me. I introduce prospects to both sides of the business (products and/or opportunity), and always follow up. Using tools really work, and makes my job so much easier.

I've attended the corporate meetings, and have learned so many life lessons. One that sticks most in my mind is that **no matter who you are -with or without education- as long as you are willing to learn, you will succeed.** I do believe that if you commit yourself to something, you will achieve success. My business advice to new starts is to use Genesis and tools. Share your personal story with those you encounter in your everyday lives; it is that simple!
