- **\$17,000 Earned in one month**
- **Infinity Bonus Earner**
- **Car Bonus Earner**
- **Always continues to enroll**
- **Qualified for every trip or contest**
- **Strong belief in training**

Wow, finding Symmetry three and a half years ago was a **complete Godsend!** I watched everyone around me growing up, work so hard to just get by, I always believed there had to be another way to build wealth... Symmetry was it! For the first time I saw a chance to work hard, put in my time, and have it come back ten-fold after a few years worth of hard work. Symmetry offers that to anyone that is willing to work. What an amazing concept: To have your income continue to grow while you strive for your dreams and goals. **A few months back I made over \$17,000 in one month!**

The results of last month (**Where I became the newest National Field Vice President**) are from nothing other than a group of united teammates, locked at the elbows, striving toward their next levels. **I've always remembered to continue enrolling new people for the new blood it brings to the business** but also for the example that it gives the rest of the organization. With the motivation and structure that training provides, especially at our SOS workshops and the system Symmetry has laid out for new people, it allows them to upgrade, move through the pay structure and get the results if they are willing to follow the system. **With amazing support and encouragement from my upline Mr. Shawn Cuff, Mr. Joe Delisle, and President Mr. Rudy Revak,** it's easy to keep everyone motivated to get out of bed each day and bust it! The hard work and loyalty of my team is amazing and each of them are all a contribution to this new level. Thank you.

I don't claim to know much but I do know that now is not the time to lolly-gag! Hard work and setting small goals each day, week and month that are attainable have allowed me to accomplish my larger goals; that next level, that cash contest win (**All time cash contest #1 earner**), that desired income, or maybe even that couple days off during the month just knowing I can. The industry of Health and Wellness is growing each and every day, Symmetry is setting new records every month, new business partners are hitting levels faster than ever. I wake up every day and am thankful of the gifts I was given, the people that I have crossed paths with, and **a company like Symmetry that can allow anything and everything to happen in my life.** The fear of missing the wave is what drives me to work so hard everyday. Stay involved, keep focused and persist through each and every day.
