

Continued Success!

Jeffrey Medina

- **Area Field Vice President**
- **Two-time 1st place \$5,000 Cash Contest Earner**
- **Earned \$200 Car Bonus**
- **Earned \$1,000 Achievement Bonus**

My parents, Joe and Josephine Medina, have been pioneers of Symmetry since the opening in 1995, so I have always been affiliated with the company at a very young age. **I have seen amazing results from taking these products in myself as well as thousands of other people all over the world.**

I became fascinated with Dr. Mark Crapo's work and how he combines the latest scientific research with the time tested wisdom of Traditional Chinese Medicine to **create a superior product line that is second to none. I decided I wanted to be a part of this: a company that changes people's lives for the better.**

I practice Acupuncture and Chinese Medicine, and distribute these products to my patients. Generally, people want to look and feel better; when people begin feeling better they always ask me if there is a product they can take to prolong the effects of their acupuncture treatment. I am able to recommend Symmetry's products based on their diagnosis to help them achieve results more quickly. As they become healthier, they share the results with their family and friends.

When I combine Symmetry's product line with my practice, it becomes quite easy to "sell" a product. In fact, **I'm not really selling a product, I'm selling results;** the product sells itself. **Thanks to Symmetry and the executive staff's influence since my childhood, I am blessed to be in a position to help people improve their health**

Symmetry has provided me an opportunity to find a career path that enables me to share the products with people everyday. For others, the first thing I recommend is to believe you can do it. Secondly, be able to persevere through the down times. Continue working the system until the system begins working for you.
