I began Symmetry during a time where my wife was terminally ill from diabetes. I heard Preneme and Majolene Jean-Charles speak on a radio show about the many benefits Symmetry offers, one of them being better health, so my wife and I decided to try it. After being in the program, **my wife's health drastically improved**, even her primary care physician had noticed the change. This made me a **strong believer in the Symmetry products**. After attending seminars, I felt more comfortable to talk to others and **when people hear the passion and confidence in my voice, it makes them a believer as well**. My goals have been for my family to be financially stable and healthy, and **I would like to help others share in our wealth** as well. **With Symmetry, I am able to support my family financially**, and as of right now, my wife is healthier and her diabetes is well under control thanks to my heavenly Father and Symmetry along with its full staff.
