There is no such thing as a born winner or a born leader. **Deciding whether you'll be a leader and/or a winner is the first step.** To become a winner, a person must be a **great team player** at every position on the field. As a former vice president from a previous company, I decided to leave what I knew and **pursue my dreams with Symmetry.**

I enrolled with Symmetry on the last day of May in 2006. **Within two months, I had become a Field Vice President.** It's unbelievable all the bonuses and contests that Symmetry gives you the opportunity to earn. I have taken **great pride in becoming a member of Symmetry,** which allows me to utilize their great nutritional supplements. Symmetry's amazing products helped my wife win her fight against a stomach ulcer.

From my experiences thus far, I have to say that Symmetry is **the opportunity** to meet new people and help these people make money. And in turn, helping others to do the same thing by teaching them to become leaders and winners, as well as team players.

I can finally say that **I found my dream opportunity.** I can spend quality time with my family, while fulfilling my goals as a business leader. In closing, anyone who has **dreams, dedication and determination** will succeed greatly at Symmetry.
