- Earned **\$100 Quick Start Bonus**
- Earned **\$50 Quick Start Double Up Contest**
- Received **\$500** as one of the top 20 winners in July's Cash Contest

I started with **Symmetry** at 19-years-old after my friend Abby and I had gone to Africa. She introduced this business to me. After seeing her struggle on the trip with health conditions and the difference the products made for her, I became interested. At first I was skeptical but after going to my first **Rhino State University** workshop I became much more confident and knew there was a good thing going on. **I was fascinated by the fact that I could retire early, enjoy life, travel, and do the things I love.**

Symmetry gives me the chance to go places that I have only read about but would love to see. I want to be able to give to charities and take my parents to awesome places like they did for me when I was a kid. We went on a family vacation every year and the chance to just go traveling when I want will be very cool! **Symmetry** is giving me more and more confidence in my ability to talk to people which will help me grow my business and allow me to do the things I want to do.

I've been able to find amazing business partners. Without their help there is no way I would be where I am now. I also have awesome mentors who have shown me the ropes and continue to help me get over my fears and reservations. They motivate me and I value what they say very much. Sometimes it takes a couple times of hearing the same thing again and again to get the big picture of what they say, but I know they want me to succeed. **It is such an awesome feeling when someone believes in you. Rhino State** is the key! They say it every day in the briefing, but the thing is that it's true. It recharges you.

If you want success you have to go after it. It's not going to come to you. It took me a while to figure this out, but now that I know, I want to go after it like everything depends on it. No matter how fast you want to have success you need to take steps to be ready. Thank you to everyone who has helped me so far. I want to help others in the future and **no matter what our level of success, we are helping others in one way or another and that is very rewarding.**
