- **Qualified for free trip to Jamaica + \$500 for travel**
- **\$2200 in Cash Contest earnings**
- **Earns \$200 Car Bonus**

My wife, Sarah, and I got started with Symmetry because a very dear friend of ours, Mr. Raul Velazquez Jr., told us that this opportunity could change my life... and it has! What attracted us most was **the freedom to make our own schedule** as well as the ability to be able to work in teams. It has given us **a chance to start our own business for next to nothing and turn it into something that we never thought possible.**

To us, Symmetry means *lifestyle*. **It gives people the potential to do things that most people only dream of**, and you create some amazing relationships along the way. Some of our goals with Symmetry are to retire young and start a family; **each day Symmetry is helping us get closer to our goals.**

All we have done to achieve success is attend the Seeds of Success workshop and bring in as many people as we could. When you are able to plug people into a system that can teach and train them about what it takes to do this business, you will be successful. If it were not for these workshops and trainings, we would not have such a dedicated team, and without this team, we could not have possibly been as successful as we are today. If we can give advise to anyone on how to achieve success and make the most of their business, it would be to get some specialized knowledge on how to grow your business by attending a Seeds of Success workshop and **getting involved as much as possible with what Symmetry has to offer!**

We would like to say thank you to all the leaders who have given us guidance along the way; leaders including Mr. Joe DeLisle, Ms. Gurunishan Khalsa, and Mr. Raul Velazquez Jr.
