

I'm finally where I want to be!

Christine Gabbard

- **Double organization volume in one month**
- **Total income more than doubled from August to September**
- **Became an Area Field Vice President in 1 month**

The moment my son reminded me how much time I was spending away from him was the moment **I knew I needed a change**. Being a single mom working 3 jobs to get by wasn't for me anymore. **I needed to start working smarter and get a rewarding, goal-oriented job that I could see myself becoming successful with. That's exactly what I found in Symmetry.** With Symmetry, I've learned how amazing and rewarding it is to know that **things happen when you focus your energy on them.**

Since I've started at Symmetry, I've **doubled my income** from August to September 2006 and have become an **Area Field Vice President in just one month!** I believe my success has come from focusing on enrolling 8 preferred customers and business partners every month. I also found success in the Seed of Success workshops. They have fantastic leadership and role models that also contributed greatly to my success. **I tell myself each morning that I am a business builder magnet and this helps me find people that I know will be great business builders for Symmetry.** Besides having the desire and dedication to succeed, a person needs to have good role models. I feel that Symmetry's leaders and business partners have all been role models to me: **teaching, guiding, and showing me what I need to do to fulfill my personal goals for success.**

I believe everyone should take advantage of the great leadership we have around us in Symmetry. **Don't be afraid to ask for constructive criticism from your leaders.** My favorite piece of advice is to never entertain thoughts that will not empower you towards your vision of wealth. I follow this every day. Tell yourself you deserve this road to success, because you do! **I've learned to never look back and thank God every morning for what you have, or you'll never appreciate what you'll get.**

Symmetry gives me the ability to soar as high as I want and go as far as I allow myself to. **Symmetry provides opportunity to have everything I've ever dreamed of and to be a great example to my children: success means putting your mind to something and never giving up, and then receiving the rewards that follow.** My goals for the upcoming year are to be a Regional Vice President by the end of February 2007 and a National Vice President by the end of October 2007. Look at me, Symmetry: I'm shooting for the stars! Here's to a great year with a great vision for the future. Thanks Symmetry! **I'll see you at the top!**
