

## *Climbing the Ladder of Success!*

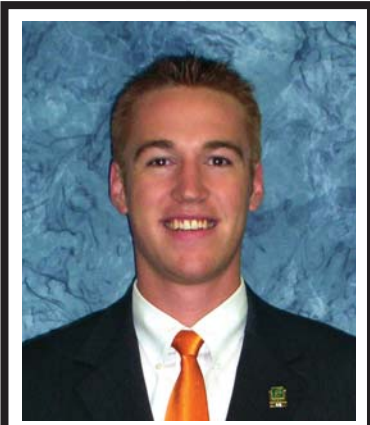

**Nick Angelo**

- Earned a free cruise and \$1,000 for travel expenses
- Created a lifestyle that only Symmetry could provide
- Earned \$400 Car Bonus

Initially, I was attracted to Symmetry for the **financial opportunity, the freedom of choice and time given, the ability to create an unbelievable lifestyle for my family and to travel the world.** While I still enjoy these benefits, I have really developed a passion to help people with their health. With Symmetry's phenomenal products, we can improve the health of the world one person at a time. The system that Symmetry has created is bullet proof.

Between **using the Power of Tools** that Mr. Revak has created and having the chance to **attend a Seeds of Success workshop** on a monthly basis - all we have to do is plug in and go to work; the rest is just time and effort. They say successful people make decisions quickly and change them slowly, but most people fall short because they make decisions slowly and change them often. **The system works if you work it;** get involved and stay involved - **involvement equals success!** I would like to thank Mr. Rudy Revak and all of the executive staff, Mr. Joe DeLisle and Mrs. Stephanie VerSteeg, my unbelievably dedicated and hard working team and, of course, all of Symmetry's satisfied customers!

**Tim Woodcox**

- Earned a free cruise and \$1,000 towards Annual Trip
- Consistently earning \$400 Car Bonus
- Truly duplicable business

I was first introduced to Symmetry by Mrs. Stephanie Versteeg. Like my enroller, I went to the Seeds of Success Workshop & started with a GObox my first month in the business. Symmetry's pay plan & products are what attracted me most to the company. **From day one it was a life changing opportunity for my family and me – a chance to take action and make something happen financially and for great health!** After having seen and experienced other direct selling companies, **I knew Symmetry would be the**

**perfect fit for us – and it's the best decision I have made for my family and our future!** I advise people to immerse themselves in what others have proven to work. Look at what other average people have already achieved in Symmetry! Give yourself a chance and take action by using the products and tools, getting yourself & others to the Seeds of Success workshop, building relationships with leaders in the business, registering for the next event – just staying involved. The more involved we've become with the company the more we like it. **The people in Symmetry have truly become like a second family to us.** Our family would like to thank Mr. Rudy Revak & the entire staff, from customer care to the executives, and the leaders in the Midwest who make the Seeds of Success Workshop possible. Most of all, thanks to our amazing team of loyal, hard working individuals who are the real reason our kids are able to have a mom & dad who can spend time with them & give them the future they deserve.
