While attending school to become an Esthetician, I was referred by one of my instructors to Dr. Howard Cohn for some health issues I had been battling with on and off for a number of years. I felt weak, tired and had lost all hope of ever changing the symptoms I was having; I was on both topical and oral medications and was desperately looking for answers. As part of my health care regime, **I was recommended to take several of the Symmetry's products**, the first of which was Symmetry's ParaCleanse and BotanaCleanse. **I felt immediate results and became excited about trying the other products.**

When I think of Symmetry, it means all things are possible and I can have anything I want, if I'm willing to work for it. I have been able to get my joy for life back, when I wasn't sure if that was possible. **I've created a business that my whole family can take part in;** we've become closer and more understanding of each other, being able to honor each other for our strengths and be there to lift each other up when encouragement is needed. My family needed this and I thank Symmetry for making that possible. Furthermore, last month **I was able to purchase the new car I've always wanted to buy - again, thanks to Symmetry!**

The **secret to my success is simple:** first, I **take the products** which makes me a product of the product; second, I **listen to Symmetry's CD's and DVD's** on a daily basis to keep me focused on what's important; third, I **share my excitement** for what Symmetry has done for me wherever I go; and lastly, I **surround myself with people who encourage me to stretch beyond the limits of my own comfort zone**

I'd like to make sure that people know to be patient with themselves. It has been my experience that in order to be successful with Symmetry, it's going to take some real **personal growth**. I have had success in just a few short months working with Symmetry as a Business Partner. However, what a lot of people don't know is that I was using the products as a customer for four years before I grew to realize that **educating people about getting their health and power back could benefit me financially rather than just trading time for money at a job.** I had the opportunity right in front of me to build equity in a business for myself and my family that would last a lifetime, that I could some day will to my grandkids.
